### Time to Update

DECEMBER 2022

#### We rebranded Regeneration

And are now live in all of the digital platforms (i.e., Instagram, Facebook). We are currently working on the webpage that should be live in February 2023.

#### We developed extensive donation programs

For companies to sponsor schools participating in Regeneration and have met with prominent companies, such as Shell in the Bahamas and South Dade KIA in Florida. We are expecting to visit several corporations in the upcoming year to raise the necessary funds to further expand the program.

#### We participated in the Honeycomb Conference

A Jewish philanthropy program where we learned and shared best practices, plus networked with people in the industry.

#### In January 2023, we are participating in PRIZMAH,

The largest Jewish educational conference in the USA, which is taking place in Denver, Colorado. We were selected as one of the main speakers.

## Regeneration Goals 2023
